## SIX SENSES ZIL PASYON WINE SELECTION

The goal of Six Senses Zil Pasyon wine program is simply to offer the most exciting wine experience to each of our guests, from beginners to the most dedicated wine connoisseurs. We are confident that guests with the most experienced wine palates will be overjoyed with the opportunity to experience wines they have always heard about or maybe just revisit an old favorite.

Our wine list reveals a weighted interest in wine styles that complement our multi-facets restaurants. A vast number of these selections are made using sustainable, organic, biodynamic, and natural practices and are easily identifiable with the **B, O** symbols.

Bio dynamism follows the precepts of the educationalist and social philosopher Rudolf Steiner (1861-1925). Applied to viticulture it follows on from the biological approach, acknowledging that not only should one be as environmentally friendly as possible, eschewing the use of herbicides, pesticides, insecticides, chemical fertilization, and the rest, and that the land should be plowed in order to be given back its natural level of micro-fauna and -flora; but that there are further interests to be pursued, most importantly the influence of the moon, stars and their astrological position vis à vis the earth, and that the vine will respond and flourish if given what are often homeopathic doses of certain naturally occurring plants and other elements.

We invite you to engage both your server and sommelier in dialogue about the wine list.

“A MEAL WITHOUT WINE IS LIKE A DAY WITHOUT SUNSHINE”

"All of our drinking water at Zil Pasyon is provided in reusable glass bottles, produced on-site at our water bottling plant, the Crystal Room. At Six Senses we bottle our own water to avoid the use of plastic bottles which have negative impacts on our environments and wildlife and can put microplastics and harmful chemicals into our own bodies."
