## Marsan CONFIT

In his colourful attire and comical straw hat, can you spot our Marsan Confit as he meanders across the resort on his bicycle? Meet our charismatic storyteller! While listening to fascinating tales about the history and traditions of the island, try a fresh fruit salad or a 'confit', which is fruit prepared according to a traditional recipe and paired with salt, chilli and tamarind sauce.

## Pirogue PAINTING

This retired vessel may have finished its seafaring duties years ago, but it has now been reborn as a three-dimensional canvas. Feel free to express yourself by painting or decorating the proud pirogue with colourful marks. Over time, it will become a symphony of vibrant patterns like a giant jewel by the ocean.

## Sega Zoomba

Swirl your hips and swing those arms with Sega Zoomba. This is a brand-new workout born from an imaginative mash-up of the global Zumba phenomenon and the fiery rhythm and moves of Mauritian Sega. Created exclusively for La Pirogue by renowned instructor Anouchka Zuel, this routine is practised by day on the beach and poolside. Staying fit has never been so much fun!

## Brilliant BREAKFAST

Start the day in good health with a hearty breakfast served in a private floating restaurant set up just for you. Seated in a traditional pirogue in the warm waters of the lagoon, your table bulges with delicacies and flavours that are as delicious as they are nutritious. Listen as your server describes the extraordinary variety of native foods and culinary flairs as a soundtrack of waves breaks gently on the reef.

## Sunset RITUAL

Witness a symphony of colours on the West Coast as the sun descends into the Indian Ocean. La Pirogue invites you to indulge in nightly sunset rituals, where the sky transforms into a canvas of gold, crimson, and lavender. Accompanied by chill-house music, savour treats and discover the artistry of local artisans. And if luck favours you on the day, you might be graced with the legendary green flash as the sun bids goodbye, a fleeting moment of magic that Jules Verne once said is an omen of clarity, unravelling the deepest truths of the heart.

## DO DO Wish

Amidst the luxurious gardens of the hotel, stands an unexpected structure: a majestic sculpture of the dodo, crafted from local badamier (Indian almond) wood. More than just a tribute to this iconic extinct bird, this artwork serves as a poignant reminder of sustainability and our impact on the planet. Do you have a personal commitment to the environment? A small action in mind to reduce your ecological footprint? Then join the Dodo Wish community and add your promise to this sculpture, a meaningful wish for a greener tomorrow.

## Marine DISCOVERY

At La Pirogue, we are committed to protecting our natural environment, which is why we invite you to explore and learn about the fascinating marine world under the guidance of our Resident Marine Biologist. During this activity, you will discover the importance of underwater ecosystems, gain insights into marine life, and visit the vibrant seabed to observe its wonders up close.
