CATAMARAN SAILING

It does not even matter if you are the most experienced sailor or a total novice, fun is guaranteed as this small sailing cat purrs through the water.

LANGUR'S DISCOVERY

06:30 am | Meet at Langur Lounge

Included in the IUCN Red List of Threatened Species and Vietnam's Red Book, the black-shanked douc langur is only found in Southern Vietnam and Eastern Cambodia. The Hon Heo mountain area behind us is one of the prevalent habitats, where langurs visit the reservoir during the dry season.

Naturally quite shy, it is a rare privilege to encounter them; however, guests can join a morning hike with our resident terrestrial biologist, Ms. Quynh to the hills where you may have unscripted encounters with these and other local wildlife.

GRANDMA'S KITCHEN
8-course Traditional Vietnamese Set Menu

Grandma's Kitchen, located across from Grandma's Garden, serves up traditional Vietnamese foods. These age-old recipes are sure to evoke warm memories of childhood and provide a sense of comfort to all who dine there. Guests can join the culinary team to pick up your own herbs and vegetables at Grandma's Garden for a cooking class or private dining at Grandma's Kitchen.

SOUND BATH JOURNEY

Singing bowls are thought to have originated in the pre-Buddhist Tibetan Bonculture. Using singing bowls for healing is based on the idea that the human body possesses a different resonant frequency. Healthy state is maintained when each cell and organ resonate in harmony, while hindered or out-of-tune energy flow causes illness. The sound frequencies created by the signing bowls restore the flow of this energy and bring about a state of well-being.

At Six Senses Spa
