SIX SENSES KAPLANKAYA

Located in the north of Bodrum, the vision for Six Senses Kaplankaya is to offer a pioneering approach to wellness while preserving the natural surroundings steeped in history and culture. The resort combines contemporary architecture and high-tech comforts for its 141 guestrooms including six suites and 66 Ridge Villas and additional three or five bedroom residences. The resort is carved into giant rock formations with green roofed buildings layered down towards the coastline to offer everyone a view across the turquoise waters of the Aegean Sea.

Six Senses Kaplankaya has five conference and event rooms fitted with state-of-the-art technology in carefully planned neutral colors, which can accommodate a range of groups and events from board meetings and lectures to receptions. Participants can get a charge of sunshine between sessions and break out in the garden, which is richly planted with weaving herbs, fruit trees, fragrant jasmine flowers and grape vines that clamber over shaded pergolas.
